PROFILE INFO

I am a Frontend Developer, passionate about React JS development. I offer expertise in Frontend Development with multiple live projects. A self-independent, reliable, and friendly individual who works hard to achieve goals. I have 6 months of experience in HTML, CSS, and responsive design, React JS.

PROJECTS

2024 - JULY

Live Project: DANGAL ARENA

- Developed and deployed a fully functional web platform for Dangal Arena at [dangalarena.com](#)
- Implemented responsive UI/UX design, enhancing user interaction and experience across multiple devices.
- Collaborated with cross-functional teams to integrate various functionalities such as user authentication, dynamic content, and real-time updates.

Live Project: VASTRALAY BAZAR

- Designed and developed a pixel-perfect UI clone for Vastralay Bazar vastralay bazar.
- Replicated modern, user-friendly interfaces based on detailed design specifications, ensuring consistency with the original layout and style.
- Employed HTML, CSS, JavaScript, and responsive design techniques to provide seamless experiences across various screen sizes and devices.
- Focused on optimizing performance and maintaining visual fidelity to the original design while ensuring smooth navigation and intuitive interaction.

PERSONAL PORTFOLIO

- The portfolio website showcases Rupesh Kumar, a Frontend Developer specializing in HTML, CSS, JavaScript, and Tailwind.
- The portfolio section lists projects like "[BookTaxics](#)," "[Dangal Arena](#)," and "[Vastralay Bazar](#)." The site emphasizes his commitment to delivering high-quality user experiences.

REACT JS

IMDB RATING APP

- Github Link: [Click Here](#)
- Developed a dynamic IMDb clone using React, integrating API calls to fetch movie data and display detailed information.
- Implemented responsive design and intuitive user interface for seamless navigation. Applied modern JavaScript practices, including hooks and state management.
